The screenshot displays the Awery software interface, a comprehensive Total Cargo Management solution. The interface is organized into several main sections:

- Flights:** Includes options for Flights, Trucks, and Map & Empty Legs, with sub-options like New Flight Wizard, Flights Schedules, and Flights Timeline View.
- Charter:** Features Broker Enquiries and Office Enquiries, with sub-options like My Enquiries and New Cargo Enquiry.
- Cargo:** Contains Shipment management tools such as Shipments Database, New Shipment, and Shipments Profit, along with Shipment Stock & Rates and Claims management.
- Cargo Handling:** Includes a Cargo Warehouse section for Warehouse cargo and ULD Control.
- Contractors:** Manages Clients, Activities & Tasks, Messaging, Suppliers, Suppliers types, and Operators.
- Accounting:** Provides a full suite of financial tools including Entries, Sales, Purchases, Bank, Cash, and Fixed Assets management.

The interface is user-friendly, with a search bar at the top and a clear navigation structure. The top right corner shows the time as 16:47 (UTC+2) and the user's name as AWERY.

Schedule & Capacity management

- Flight & Schedule creation;
- Import from 3rd party Flight Ops system or from SSIM/CSV;
- Capacity set up (AC Type / Aircraft / Flight level);
- Capacity auto-calculation based on the number of passengers and baggage (for PAX/Cargo flights).

The screenshot displays the ACME Flights Timeline View. The main area shows a timeline from May 28 to May 29, 2025. Flights are listed on the left, including 'Without AC', 'A9C-TXY', 'A9C-TXZ', and 'Canceled'. The timeline shows flight segments with call signs and times. A right-hand panel provides details for flight XLR111, including its route (MEL/YMML - PER/YPPH) and status (Planned).

The screenshot shows the 'Imports Schedules' interface. It features a table with the following data:

Schedule from Date (Start)	Schedule to Date (End)	Flight Number	Origin Airport	Dest Airport	Flight Frequency
2024-05-02	2024-02-24	2U161	CDG	ALG	1,6

Enquiries processing

- Email pre-processing engine (based on content, client priority and tags);
- One-click email-to-enquiry conversion;
- Alternative ways of enquiry creation- manually, from Customer Portal, integration with web-form.

The screenshot shows an email inbox with columns for Important, Date, From, Subject, M..., Contractor, Link, Status, and Labels. A 'New Enquiry Wizard' overlay is active, displaying 'New Cargo Wizard', 'New PAX Wizard', and 'New VIP Wizard' options. Below the wizard, a message preview is visible with 'From: denis.i@awery.aero', 'Subject: Charter request', and 'Message: Hello, Please, provide me ...'. A 'QUOTE ACCEPTED' notification is also present.

The screenshot displays the 'Cargo Enquiry' web interface. On the left, an email preview shows the sender 'Denis Ivanenko <denis.i@awery.aero>', the subject 'Charter request', and the body text: 'Hello, Please, provide me with your best price for the next charter. Route: KRK - DXB, Date: 18.06.2025, 40000 kg of car spare parts'. The right side features a detailed enquiry form with fields for Office (LiwaAir Charter Solutions), Customer, Charter Type (General Cargo), Contract Type (Ad-hoc), and Enq. Currency (USD). It includes a table for 'Option 1' with columns for From, To, Date, Payload, and Volume. Below this is a 'Cargo Details' section with a table for Total Pieces, Total Gross WT, Total Act. Ch. Weight, Volume, cbm, Vol. Chargeable Weight, and Ready Date. A 'Validity of Quote' section shows 60m, 24h, 48h, and 7d options. The 'Notes' section contains the text 'Best price requested for charter.' and buttons for 'Add Piece' and 'Change Dims'. At the bottom, a table shows the enquiry details: QTY 1, L 0, W 0, H 0, Piece WT 40,000, Total WT 40,000, and Volume.

Workflow management

- Ability to set a Checklist for the workflow tracking;
- Additional documents and email templates.

The screenshot shows the LIWA air charter software interface. The top navigation bar includes options like Refresh, Update, Delete, Create Flight, and Send & Print Quote Reports. The main area displays quote details for TORI LTD, including fixture ref LIWA2SVS06003, type Cargo, and charter type Electronics. A 'Confirmation' pop-up window is overlaid on the right, showing flight details for HJ184.
